— STRUCTURE —

SAP ISU Billing Training Curriculum

“Master the SAP ISU Billing and Invoicing fundamentals and start a never-ending career in the SAP space right away with us!”

Course Objectives:

- Learn about the billing-relevant master data and ISU Billing functions.
- Also, gain an understanding of the billing process flow, up to and including invoicing and bill printing.
- Learn how to maintain existing rates, create new constructs, and edit budget billing plans.
- Prepare yourself for the related global certification exam and get recognition
- Apply for leading MNCs and get hired by top industries across the world.

Course Description:

Billing and Invoicing module explain the process that starts with Billing and Invoicing and finishes with Bill print out. Here you will also get knowledge of all ISU/CCS master data and functions relevant to Billing. Detail analysis of rates and prices modelling is presented in most simplistic way.

Course Highlights:

- SAP ISU Overview -> Billing Overview -> Master Data Overview -> business Master data -> Technical Master Data ->Regional Structures -> Scheduling Master Record
- Rate structure → Rate types and rate categories → Prices → Billing schemas → Rate determination
- Billing process → Functions (including periodic and period-end billing) → Simulation → Out sorting → Reversal → Manual billing
- Invoicing → Bill print-out → Budget billing plan → Reversal
- Business Process Exception Management (BPEM)
- Discounts and surcharges
- Special billing features
- Customizing functions
